max|max LITE

COMPATIBLE WITH

HEARING IMPAIRED
FUNCTION

Call forwarding on smartphone.

Integration with Yokis
for electrical wiring system automation.

mɘX Monitor

Max is the new latest generation 7" IP touch screen by Urmet. The thin and state-of-the-art display can be wall or flush mounted. The screen leverages **Sensitive Touch** technology to integrate innovative functions such as building automation control, appliance and video surveillance system management, proximity key scanning for facilitated access, audio and video call and messaging management directly from a smartphone through the Urmet **CallMe**.

Touch-screen display

Home Pushbutton

Yn⏻

Manage and customize your own Smart Home system via smartphone and tablets using the Yno App.

APP iUVS plus
